

## 25 POINT CHECKLIST FOR YOUR PEACE OF MIND

You have probably never given much thought to just how much time and effort

you put into your pet's good health and happiness. We have!

When you are gone, many things have to be done on a daily basis to make certain your pets are safe, secure, comfortable and happy.

We go through a 25 point checklist every time we visit with your pets.

- Sanitizing to reduce illness & disease
- Releasing your security system
- Bringing in the newspaper
- Bringing in the mail
- Giving each pet clean, fresh, water
- Giving each pet the proper amount of food
- Making sure each pet eats their food
- Checking on the welfare of shy or reclusive pets
- Restoring the supplies in the proper place
- giving treats (if they are allowed)
- Cleaning up any "accidents" or messes that may occur
- Watering plants
- Having play time with each pet
- Cleaning the litter box
- Maintaining a comfort level in the home you set
- Checking all internal and external doors and windows
- Monitoring the condition of the home
- Ensuring the house fence perimeter is secure
- Changing the lighting arrangement
- Making sure pets are in their proper place
- Making notes for the owners
- Administering medication if needed
- Checking each pet's condition
- Re-locking the house
- Restoring the security system

You do most of these things automatically when you are home.

Isn't it comforting to know that someone is going to go through a checklist each day and do them for you while you're away?
